The Business Journal

Assisting leaders to reach their goals:

* Speaking/presenting to an audience of one or one thousand is no exception to the value of telling your truth/story well

* Our strength is our ability to help clients tell their story: to understand and communicate the story in a way that will resonate with the decision maker(s)

* We review documents, and work with you to develop communication themes and a story sequence that maximizes the persuasiveness of your message to the broadest audience possible

* Our approach involves shifting your mindset away from a narrow or technical focus to the audience's focus

* We take the perspective of the audience, the decision maker, asking the questions they will ask, identifying strengths and addressing pitfalls

* Sometimes we just help you get out of “your own way”

“Without working with Leslie, I am not sure I could have successfully transitioned my executive style in the proper direction. At this point in my career, I just needed a jump-start to ensure my actions were sufficient to achieve my plans.”
