

Electrify Your Audience

With Words of Excellence

**Do you create magical moments for your audience of one or one thousand?
Do you understand the differences to protect your value and excel?**

Leslie G. Ungar redefines how we communicate our value. Her competitive edge comes from the entree she has into the executive world, the 2,500 presentations she has conducted, and the PBS Forum 360 TV show she hosts.

Leslie breaks the mold of traditional keynote speakers. With her unique perspective, Leslie coaxes and challenges the audience to identify and communicate their competitive edge. Her message lingers bridging the gap between your present plateau and your performance potential.

"Leslie- You were fantastic. Thank you! Across the board, people thought you were the perfect person for us and felt the time was well spent. Not sure where we will go in the future, but we do have interest in bringing you back to campus to work with staff. I am glad that our paths have crossed."
